

***STABLE. RELIABLE. ABUNDANT.
A CLEAN BURNING SOLUTION.***

Stateline's natural gas powered generators are built for high reliability in situations that result in power outages. Storm related power failures typically do not affect the natural gas infrastructure, eliminating the need to re-fuel. Natural gas engines have numerous benefits, but the leading decision making point for most industries is the lower operating cost: On an energy-equivalent basis, abundant supplies of natural gas are available at less than half the price of a barrel of oil, which translates to cost that are 20-30 percent more affordable than gasoline.

Stateline offers open or enclosed natural gas powered solutions in a wide range of engine sizes to serve any backup power requirements. **Do you have specific or detailed needs? Contact us today at 800-267-8984.** A Stateline representative will guide you toward the best solution for your individual needs, or suggest a custom built solution.

NATURAL GAS ENCLOSED SOLUTIONS

100-150 KW Models

45-80KW Models

25-30 KW Models

45-60 KW UL LISTED Models

NATURAL GAS OPEN SOLUTIONS

Product # SG-45
45 kW Engine by General Motors

Product # SG-60
60 kW Engine by General Motors

Product # SG-80
80 kW Engine by General Motors

Product # SG-25
25 kW Engine by General Motors

Stateline Power is a leading manufacturer of custom-engineered diesel, propane and natural gas power generation equipment for on-site continuous, emergency standby and mobile power.

Serving agricultural, residential, commercial, municipal, healthcare, hospitality and trade customers throughout the United States and internationally from their 45,000 square foot manufacturing center in Greenville, Ohio, Stateline has accrued 20 years of knowledge in the industry, offering customized design and manufacturing capabilities, with a fierce focus on product reliability and hands-on customer service.
