

***THE STRENGTH AND LONGEVITY
TO POWER THROUGH THE STORM***

Stateline's diesel powered generators are built for ultra efficient high kW applications in a variety of industries – especially those where code requires on-site fuel storage. Diesel engines have numerous benefits, but the leading decision making point for most industries is the lower operating cost: The fuel costs per kW produced is thirty to fifty percent lower than that of gasoline.

Stateline offers open or enclosed diesel powered solutions in a wide range of engine sizes to serve any backup power requirements. **Do you have specific or detailed needs? Contact us today at 800-267-8984.** A Stateline representative will guide you toward the best solution for your individual needs, or suggest a custom built solution.

DIESEL ENCLOSED SOLUTIONS

9-30 kW Models

45-100 kW Models
