

***STRENGTH. DURABILITY. RELIABILITY.
FEEL CONFIDENT SPECIFYING STATELINE.***

We know how many architects, landscape architects, engineers, construction managers and contractors specify power systems in their professional projects every day. You want the products you specify to be strong, long lasting and most of all — reliable.

Stateline offers multiple stationary and mobile power generation solutions that are appropriate for applications across virtually every industry. With 20 years of development and manufacturing experience under our belt, you can feel confident in specifying the Stateline name.

Spec sheets, installation drawings and emission information is available for all of our products, as well as the opportunity to have a one-on-one consultation with a Stateline representative. To assist professionals in selecting an appropriate power solution, Stateline representatives frequently serve as a consultant on the project team to assist in answering any technical or product design questions.

We stand behind our products on a highly personal level because we believe in what we produce.

Stateline offers a variety of stationary and mobile power generation products that are geared for use in virtually any industry. Stateline's aluminum enclosures naturally resistant to salt air, are rated for hurricane-force winds of up to 150MPH and have a wide range of custom colors or wraps to help the unit blend into the natural environment. The products featured on this page are just a few of the Stateline backup power solutions working to power projects in the agricultural, residential, commercial, municipal, healthcare and hospitality industries throughout the country.

Product # SP-9
9 kW Diesel

Product # SG-45
45 kW Propane or Natural Gas

Product # SG-60
60 kW Propane or Natural Gas

Product # SG-80
80 kW Propane or Natural Gas

Product # SJ-30
30 kW Diesel

Product # SJ-60
60 kW Diesel

Product # SJ-205
205 kW Diesel

Product # SJ-400
400 kW Diesel

Does your project have very specific or detailed needs? Looking for spec sheets? Contact us at 800-267-8984. A Stateline representative will guide you toward the best solution for your individual needs, or suggest a custom built solution.

Stateline Power Corp is a leading manufacturer of custom-engineered diesel, propane and natural gas power generation equipment for on-site continuous, emergency standby and mobile power.

Serving agricultural, residential, commercial, municipal, healthcare, hospitality and trade customers throughout the United States and internationally from their 45,000 square foot manufacturing center in Greenville, Ohio, Stateline has accrued 20 years of knowledge in the industry, offering customized design and manufacturing capabilities, with a fierce focus on product reliability and hands-on customer service.
